<sup>a</sup> Parties should fill in a separate table for each year, namely 2015 and 2016, where 2018 is the reporting year.

<sup>b</sup> Parties should report, to the extent possible, on details contained in this table.

<sup>c</sup> Parties should explain, in their biennial reports, the methodologies used to specify the funds as disbursed and committed. Parties will provide the information for as many status categories as appropriate in the following order of priority: disbursed and committed.

<sup>d</sup> Parties may select several applicable sectors. Parties may report sectoral distribution, as applicable, under "Other".

<sup>e</sup> Parties should report, as appropriate, on project details and the implementing agency.

<sup>f</sup> Parties should explain in their biennial reports how they define funds as being climate-specific.

## Lessons from current MRV of support

---

## **Opportunities: Reporting on support in BTR**

---

**Standardized formats should lead to more clarity, comparability and consistency of information**

**Reporting parameters/provisions should lead to provision of greater granularity of information**

**Building on existing experience on what has worked well and where capacity building needed**

**All Parties to report on support – greater transparency**
