

GEC serves as the Secretariat of the Feasibility Study (FS) Programme on New Mechanisms for GHG Mitigation, commissioned by the Ministry of the Environment, Japan (MOEJ). The FS Programme focuses on the New Mechanisms to be possibly introduced in the post-2012 framework.

New Mechanisms (Scopes under this Programme in 2010)

- Nationally Appropriate Mitigation Actions by developing countries (NAMAs)
- Sectoral Crediting Mechanism (SCM) / Sectoral Trading Mechanism (STM)
- Reduced Emissions from Deforestation and Degradation in developing countries (REDD) / REDD-plus

Objectives

- To acquire useful information based on concrete projects/activities (case studies)
- To disseminate FS results to create shared visions on New Mechanisms among Parties and other stakeholders
- To provide possible proposals for an international/domestic MRV criteria/standards establishment
- To consider what options to generate transferable carbon credits are feasible and acceptable
- To promote discussions on ways to mobilise public funding and private investment into climate change mitigation measures

List of New Mechanisms Feasibility Studies (2010)
