COP24 · KATOWICE 2018
UNITED NATIONS CLIMATE CHANGE CONFERENCE

Side Event *Linking Carbon Markets and Climate Finance in African Countries*, 6 December 2018

Integrated climate finance in the Paris world with strong demand for credits

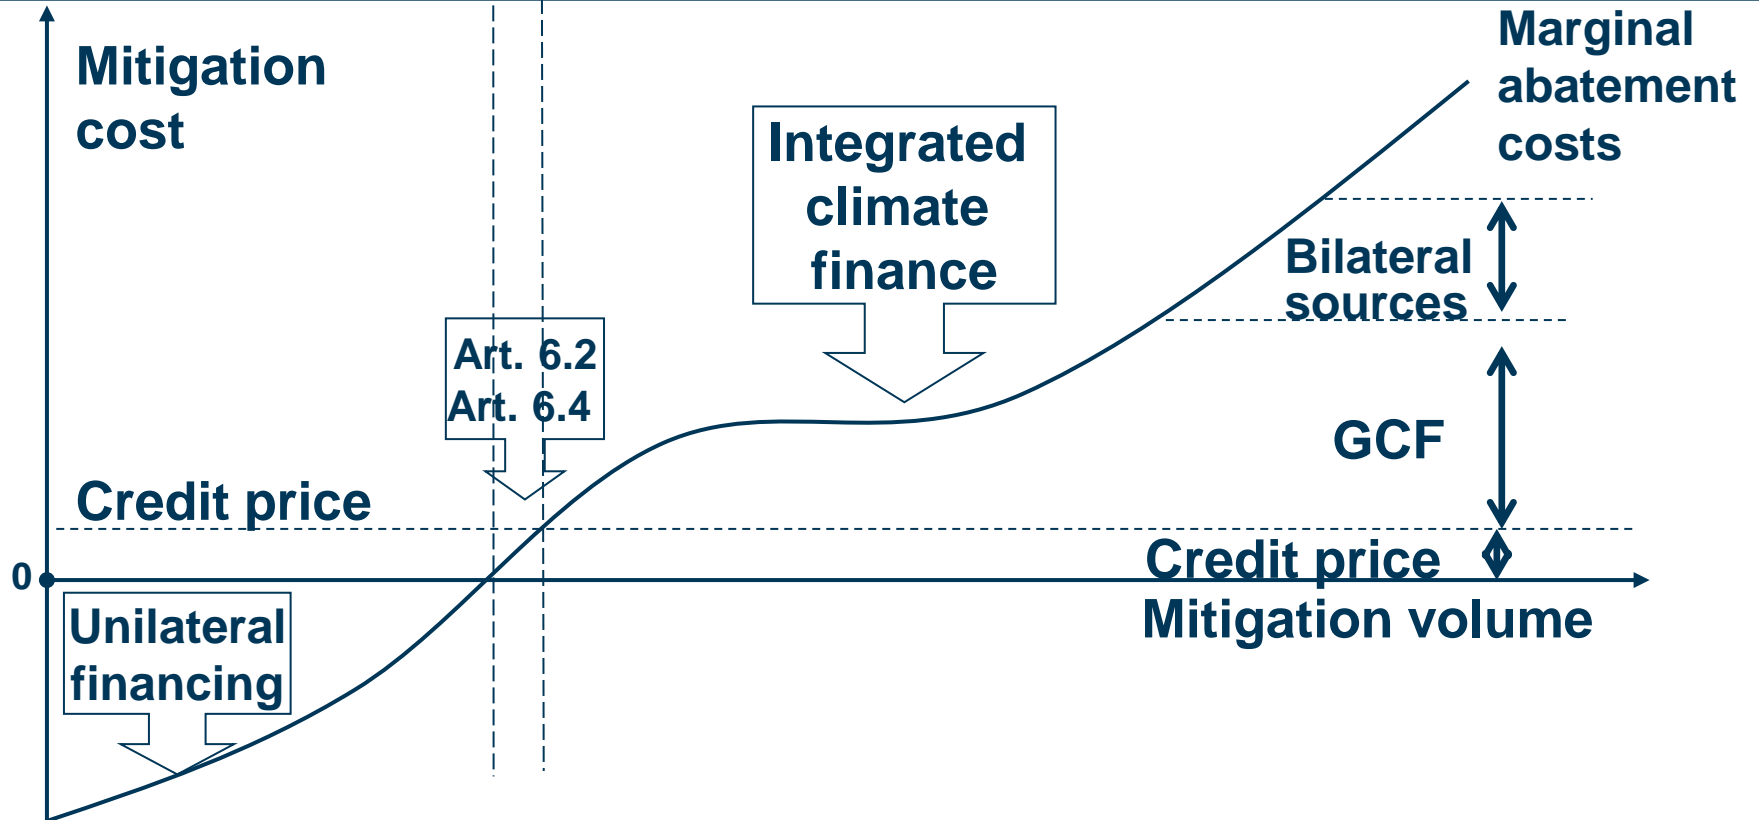

Center for Comparative and International Studies (CIS)

Integrated climate finance in the Paris world with low credit demand

Center for Comparative and International Studies (CIS)

- Should **CDM** transition into Art. 6?
- Should Art. 6 activities be **blended** with public climate finance?
- What are the **experiences of various African countries** with **carbon markets** and how do these experiences inform their **negotiation positions**?
- What **capacities** are needed in African countries to enable a **smooth utilization** of all relevant finance sources for mitigation?
