Global Protocol for Community-Scale GHG Emissions (GPC)

Developed by ICLEI and C40, in collaboration with WB-UNEP-UNHABITAT and WRI, Global Protocol for Community-Scale GHG Emissions (GPC) supports local, national, and global climate mitigation efforts by standardizing how communities quantify and report their GHG emissions.

Facilitator:

Gino van Begin, Deputy Secretary General, ICLEI – Local Governments for Sustainability

Opening Remarks:

Jürgen Nimptsch, Mayor of Bonn, Vice-Chair of World Mayors Council on Climate Change

David Cadman, former Councilor of Vancouver, President of ICLEI

Seth Schultz, Research Director, C40 Cities Climate Leadership Group

Wee Kean Fong, Project Manager, GHG Protocol Cities Project, World Resources Institute (WRI)

Presentation of the Global Community Protocol:

Yunus Arikan, Manager, Cities Climate Center, ICLEI

Further Remarks:

Anthony G. Bigio, Finance, Economics and Urban, WB and IPCC-AR5-WGIII

Robert Kehew, Climate Mitigation to Support Urban Poor, UN-HABITAT

Chris Kennedy, Cities and National GHG Inventories, University of Toronto, Advisor to OECD
