

# CDM A/R, temporary credits and the EU Emission Trading Scheme

1

- ♦ Bas Clabbers (The Netherlands): The history of LULUCF in the linking directive
- ♦ Benoit Bosquet (Bio Carbon Fund): BioCF experience with CDM A/R proposals as a prelude to what the ETS might be expecting
- ♦ Mustapha Kleiche (Agence Française de Développement): Maximizing benefits for most vulnerable communities and people
- ♦ Lou Verchot (ICRAF): CDM must change to meet development goals for Africa
- ♦ Berhard Schlamadinger (Joanneum Research): Ways to use forestry credits in the EU ETS
- ♦ Robert Zomer (IWMI): Scientific support for quality CDM A/R project activities

(Moderated by Igino Emmer)
