AGRICULTURE FOR CLIMATE ACTION A VISION FOR FUTURE

Wednesday, 19 June, 2019 | Berlin Room | 16:45 – 20:00

The Rome Based Agencies will hold an event to define the long term vision for addressing climate change through agricultural sectors as well as to discuss the future of the Koronivia Joint Work on Agriculture. The event will be structured in two 90 minute segments:

- **Segment one | 16:45-18:15**

Showcasing country experiences of integrating agricultural sectors in their international commitments and national climate policies and defining incentives for an enabling environment to implement these policies.

- **Segment two | 18:30- 20:00**

Presenting the growing commitments from national to international financial mechanisms to meet the need for climate finance in the agricultural sectors and to implement the thematic areas of the Koronivia Joint Work on Agriculture.

Refreshments will be served between both segments and after the event.
