

Side-Event on

“Hot spots.
Projections and impacts
of climate change
in the Mediterranean
and Caribbean Areas.”

United Nations Climate Change
Conference, COP 15
Bella Center, Copenhagen

Monday, 14 Dec 2009

11:00 - 12:30

Room: Liva Weel

Agenda

The Euro-Mediterranean Center for Climate Change (CMCC) and Caribbean Community Climate Change Center (CCCCC) present new results on the nature and mechanisms of climate variability, its impacts and their economic consequences in the Mediterranean and Caribbean Areas. An integrated analysis will provide new insights on climate impacts and adaptation measures.
