Tuvalu	3	9.05
Uganda	3	17.13
Vanuatu	3	21.62
Yemen	2	16.53
Zambia	4	20.16

LDCF financing by sector (\$ million)

- large majority of the projects is **aligned with their NAPA**;
- Projects are consistent with LDCF strategies, eligibility criteria, and priorities;
- NAPA projects are **mainstreaming gender** into adaptation initiatives;
- large majority of NAPA implementation projects included wide stakeholder involvement. **(GEF Independent Evaluation Office, LDCF Program Evaluation 2016)**

LDCF: Expected results

Indicator	Value	Number of projects	Number of countries
<i>Objective 1: Reduce the vulnerability of people, livelihoods, physical assets and natural systems to the adverse effects of climate change</i>			
No. of direct beneficiaries	15,000,000	118	46
Ha of land better managed to withstand the effects of climate change	2,230,000	65	36
<i>Objective 2: Strengthen institutional and technical capacities for effective adaptation</i>			
No. of projects that expand access to improved climate information services	70		40
No. of projects that expand access to improved early-warning information	50		36
No. of people trained	647,000	93	43
No. of institutions strengthened	312	68	42
<i>Objective 3: Integrate climate change adaptation into relevant policies, plans and associated processes</i>			
No. of regional, national and sector-wide policies and plans strengthened	175	68	39
No. of sub-national plans and processes strengthened	1,460	73	38

Addressing the remaining elements of the LDC WP

- Building capacity for LDCs to participate effectively in intergovernmental climate change processes (\$4.5M): addresses gaps in existing support to **national climate change secretariats and/or focal points**, and provides **training to develop the capacity of LDC negotiators**
- Support for **public awareness, technology transfer and climate information services** is routinely provided in the context of NAPA implementation; in response to LDC demand

Support towards the NAP process

- \$2 million from the LDCF towards the global project *Assisting Least Developed Countries with country-driven processes to advance National Adaptation Plans (NAP-GSP)*
- \$6.95 million towards the project *Expanding the Ongoing Support to Least Developed Countries with Country-driven Processes to Advance National Adaptation Plans*
- *Since July 2015, eight LDCF proposals to support elements of the NAP process have been technically cleared*

Technical Review of the LDCF

- The COP requested the GEF to carry out a technical review of the program priorities of the LDCF, focusing on:
 - i. undertaking pilot concrete climate change activities that are particularly relevant for the least developed countries; and
 - ii. enhancing longer-term institutional capacity to design and execute activities referred to above.
- The GEF Secretariat has already taken a number of steps towards carrying out the technical review, including by:
 - i. consulting informally and formally with relevant stakeholders in least developed countries; and
 - ii. continuing preparations for a draft document on the technical review to be annexed to the GEF's report to COP 22.
