

Ministerio de Ambiente, Vivienda y Desarrollo Territorial
República de Colombia

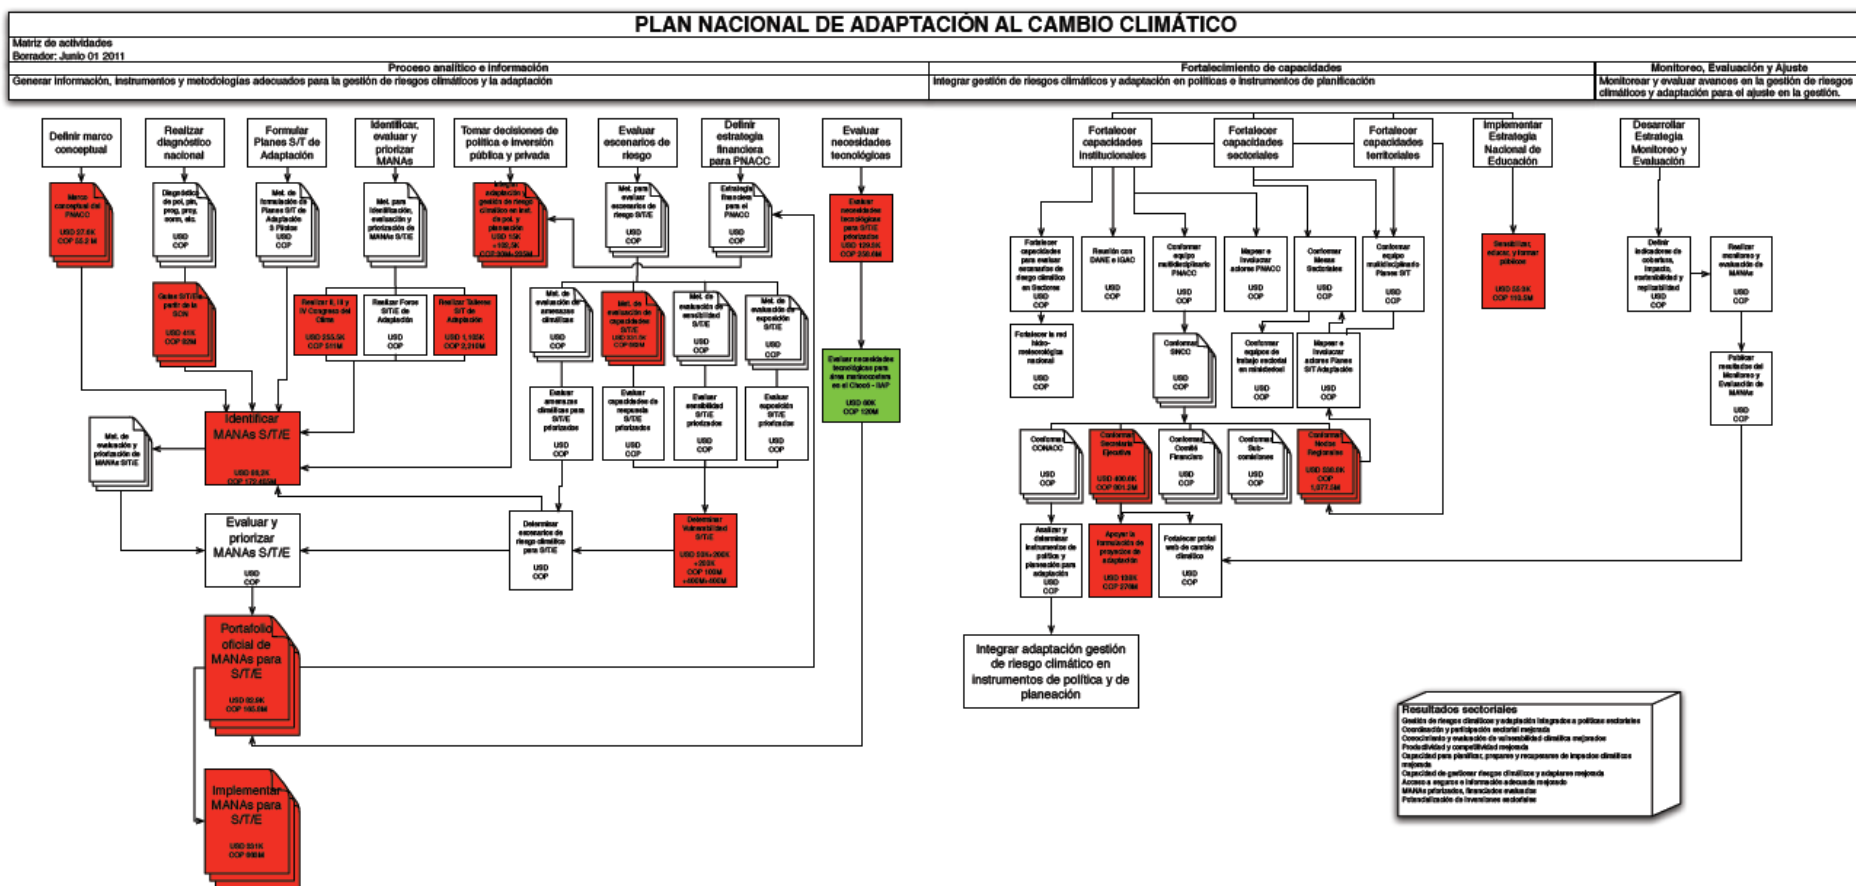

In-country Institutional Arrangements for Climate Finance: initial review of countries' experiences Side Event Colombia

- Institutional Arrangements for National Climate Change Policy have a broader scope.
 - New Ministry of Environment and Sustainable Development (august 2011)
 - Higher importance of Climate Change issues
 - Climate Change included in the National Development Plan (2011-2014)
 - Specific goals
 - National Adaptation Plan
 - Climate Change Policy Document (CONPES): to establish the National Climate Change System

- The Ministry of Environment has identified the actual finance needs:

- Arrangements for Climate Finance:
 - Greater emphasis on Adaptation
 - E.g. Projects for Adaptation Fund
 - National Level: a institution to channel international cooperation (bureaucratic constraints with present institutions)
 - Regional Level: Regional Environmental Authorities (CARs) to manage directly the resources
