

Promoting Low Carbon Asia for the Paris Agreement: Cases of National and Local Experience on NDC activities and market mechanisms

Date: 11:30-13:00, 9th Nov 2016

Venue: Observer room 10 (150)

Organizers: NIES, UTM, OECC, MOEJ

MC: Dr. Junichi Fujino (NIES)

Objectives:

After the adoption of the Paris Agreement, while development of national level plans such as NDCs have been making progress, development of city level plans for the realization of low-carbon cities are also becoming active. With understanding this background and focusing on city-level activities, some actual examples of activities including city-to-city collaboration through the Joint Crediting Mechanism (JCM) and utilization of the Asia-Pacific Integrated Model (AIM) will be introduced. In the discussion session, panelists will discuss how national-level and city-level activities can create synergistic effects to accelerate the movement to further achieve low-carbon or decarbonized societies in the future.

Agenda:

11:30-11:35 Opening remarks

- Mr. Datuk Ayub Rahmat, (Chairman, Johor Health and Environment Committee, Malaysia)
- Mr. Satoru Morishita or Mr. Yoshihiro Mizutani (MOEJ)

11:35-11:45 International Trend of NDC and local initiatives

- Mr. Ranping Song (World Resource Institute: WRI)

11:45-12:15 Japanese Supporting Activities: modeling/city twining/market mechanism (JCM)

- Mr. Mizutani (MOEJ)
- Dr. Junichi Fujino (NIES)

Q&A

12:15-12:35 Case Studies in Asia

- Dr. Pham Van Tan (MONRE, Vietnam)
- Datuk Hj Sahrom Ujang (Kuala Lumpur City Hall)

12:35-13:00 Panel Discussion

Leading discussant

- Prof. Ho Chin Siong (UTM)
- Dr. Pham Van Tan (MONRE, Vietnam)
- Boyd Joeman (IRDA)
- Mr. Ranping Song (WRI)

13:00 Adjourn
