

## A new understanding of **Paris-compatible** climate action

Translating 1.5°C into technological, social, and political examples of transitional change around the world

**Wednesday 5 December / 15:00 - 16:30 / WARMIA**

Live streaming available at the UNFCCC side-event webcast page

Join us for a positive discussion on what being Paris-compatible means in the real world, and presenting examples of how the transformation in line with the 1.5°C limit is already happening and the imperatives we must act upon as a global society in order to stay within 1.5°C of warming.

### **What does non-alignment with Paris mean?**

Dr Jacob Schewe, Potsdam Institute for Climate Impact Research

### **The action plan for 1.5 degrees**

Hanna Fekete, New Climate Institute
