

Harnessing Synergies between Market Mechanisms and Climate Finance

AfDB PAVILION

THURSDAY 13th DECEMBER 2018

09:00-10:30

This side event will present a project to pilot replicable climate financing models in Africa, drawing on ongoing experiences in Ethiopia, Senegal and Uganda. The pipeline of activities under the CDM is assessed regarding the feasibility of mobilizing international climate financing and projects are to be brought into the pipelines of these institutions. Partner governments will showcase how these activities help implementing the NDCs currently under revision.
