

CIFOR's Global Comparative Study on REDD+

This knowledge sharing platform presents project outputs from CIFOR's Global Comparative Study (GCS) on REDD+ from 2009 to May 2016, which includes 14 country cases from across Asia, Africa and Latin America. Please visit the [GCS REDD+ website](#) for the most updated information and recent publications.

Coffee is a commodity of the Wae Rebo people. Their coffee trees are directly adjacent to natural forests.
