

Copenhagen Climate Council:

Business requirements of a post-2012 climate treaty

SIDE EVENT AT COP14, POZNAN

Monday 8 December 11-12.30

Room GREBE

Refreshments will be served

COPENHAGEN CLIMATE COUNCIL

Global partnership for a better climate

At the side event council representatives from business, science and policy will present their **key principles for a new treaty** to engage in dialogue with the audience on the business response to a new treaty.

These thoughts will then feed into the development of the final recommendations delivered by international business leaders at the **World Business Summit on Climate Change on 24-26 May 2009** and finally delivered to the host of the COP15 in order for them to bring the recommendations into the negotiation process.

After the discussion, the Danish Lead Negotiator Mr. Thomas Becker will give his concluding remarks.

In the panel:

Tim Flannery

Chairman of the Copenhagen Climate Council, Author of the Weather Makers

Jerry Stokes

President, Suntech Europe (Solar)

Steve Harper

Global Director, Environment and Energy Policy, Intel (ICT)

Susanne Stormer

Vice President, Novo Nordisk (Health Care)

Robert Purves

Chairman, Business Environment Australia and Board of WWF International

Michael Zarin

Director, Government Relations, Vestas Wind Systems (Wind)

Dan Kammen

Professor, University of California, Berkeley Co-Director, Berkeley Institute of the Environment

Thomas Becker

Lead Negotiator, the Danish Delegation

Moderated by:

Nick Rowley

Director, Kinesis and former Advisor to Tony Blair

About the Copenhagen Climate Council

The **Copenhagen Climate Council** is an international initiative that brings together leading authorities on climate change, including the world's most renowned scientists, business leaders and diplomats, who are dedicated to turning the challenges of climate change into new opportunities.

The goal of the **Copenhagen Climate Council** is to create a constructive and positive global dialogue based on effective solutions to climate change. The recommendations of the Council are delivered directly to the Danish government, which will take them forward to the UN COP15 Climate Conference in December in 2009. This gives business a voice at the negotiating table and the opportunity to help build a workable framework to tackle climate change.
