

# Achieving Climate and Equity Outcomes: The Role of Policy Design for Effective and Durable Outcomes

**Ben Cashore**  
Presentation to panel,  
“Equitable Climate Action:  
Laws, Policies, and Finance for an Inclusive and  
Accountable Transition”

Nov 19, 2024, COP side event, Baku Azerbaijan

**Professor & Director, Institute for  
Environment and Sustainability, Lee  
Kuan Yew School of Public Policy  
COP29 | November 19, 2024  
Presentation to panel**

# Context

- Two Ben Cashores
  - #1 Student of climate, forests and biodiversity governance for 30 years
  - #2 Director of new sustainability institute

# Ben#2

## Helping Build a Network-nested Sustainability Think Tank at the Lee Kuan Yew School of Public Policy

# Ben #2: Consensus that Climate Solutions Must be Just and Equitable

---

Meeting the Paris Accord's goal of limiting warming to 1.5/2 ° Celsius

Peak carbon emissions by 2030 or earlier

Carbon neutrality ("net zero") by 2050

Just and equitable transitions

# The Question Remains

- How can effective climate solutions be designed to be equitable?
- My argument
  - Whether climate and equity outcomes are synergistic or not is not pre-ordained
  - Achieving both requires much greater attention to policy design and policy pathways

# Policy levers can trigger change process

---

# Through Multiple Step Policy Pathways

---

**Example #1:**  
**Policy design innovations can accelerate  
clean technologies and income**

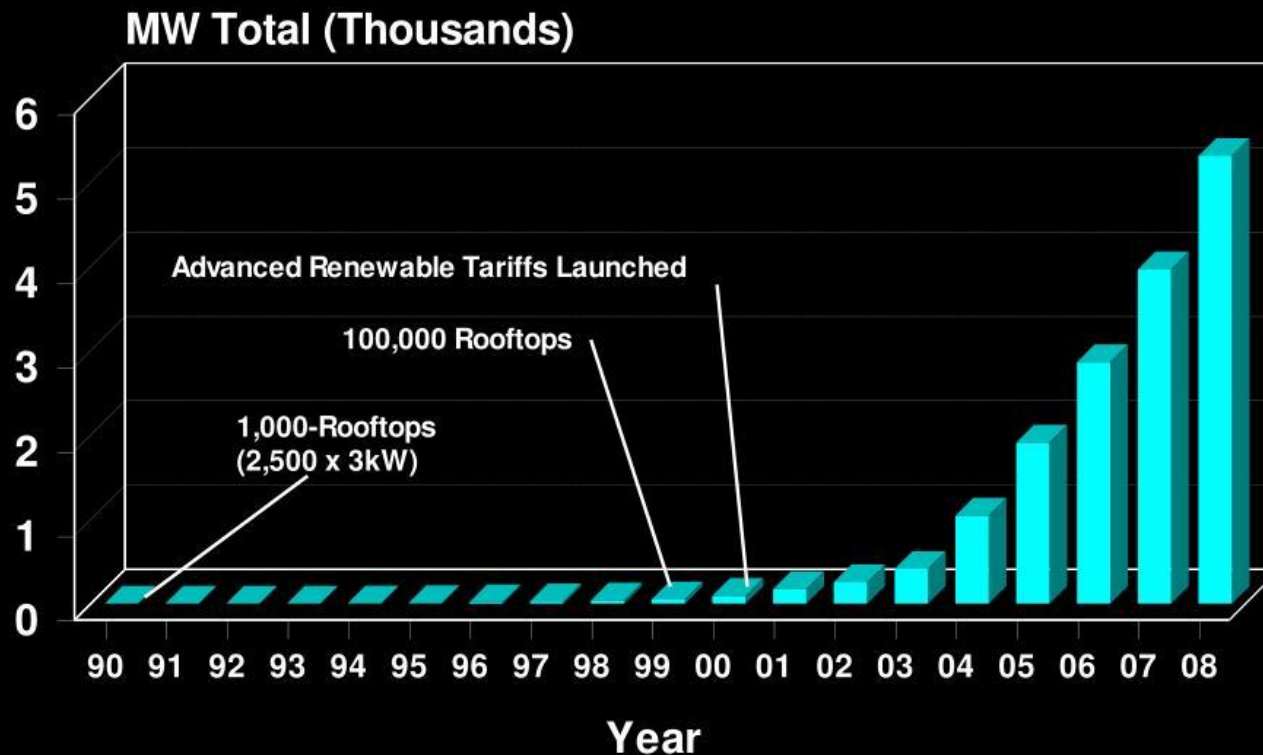

# Example #1: Germany's Feed-In-Tariff

---

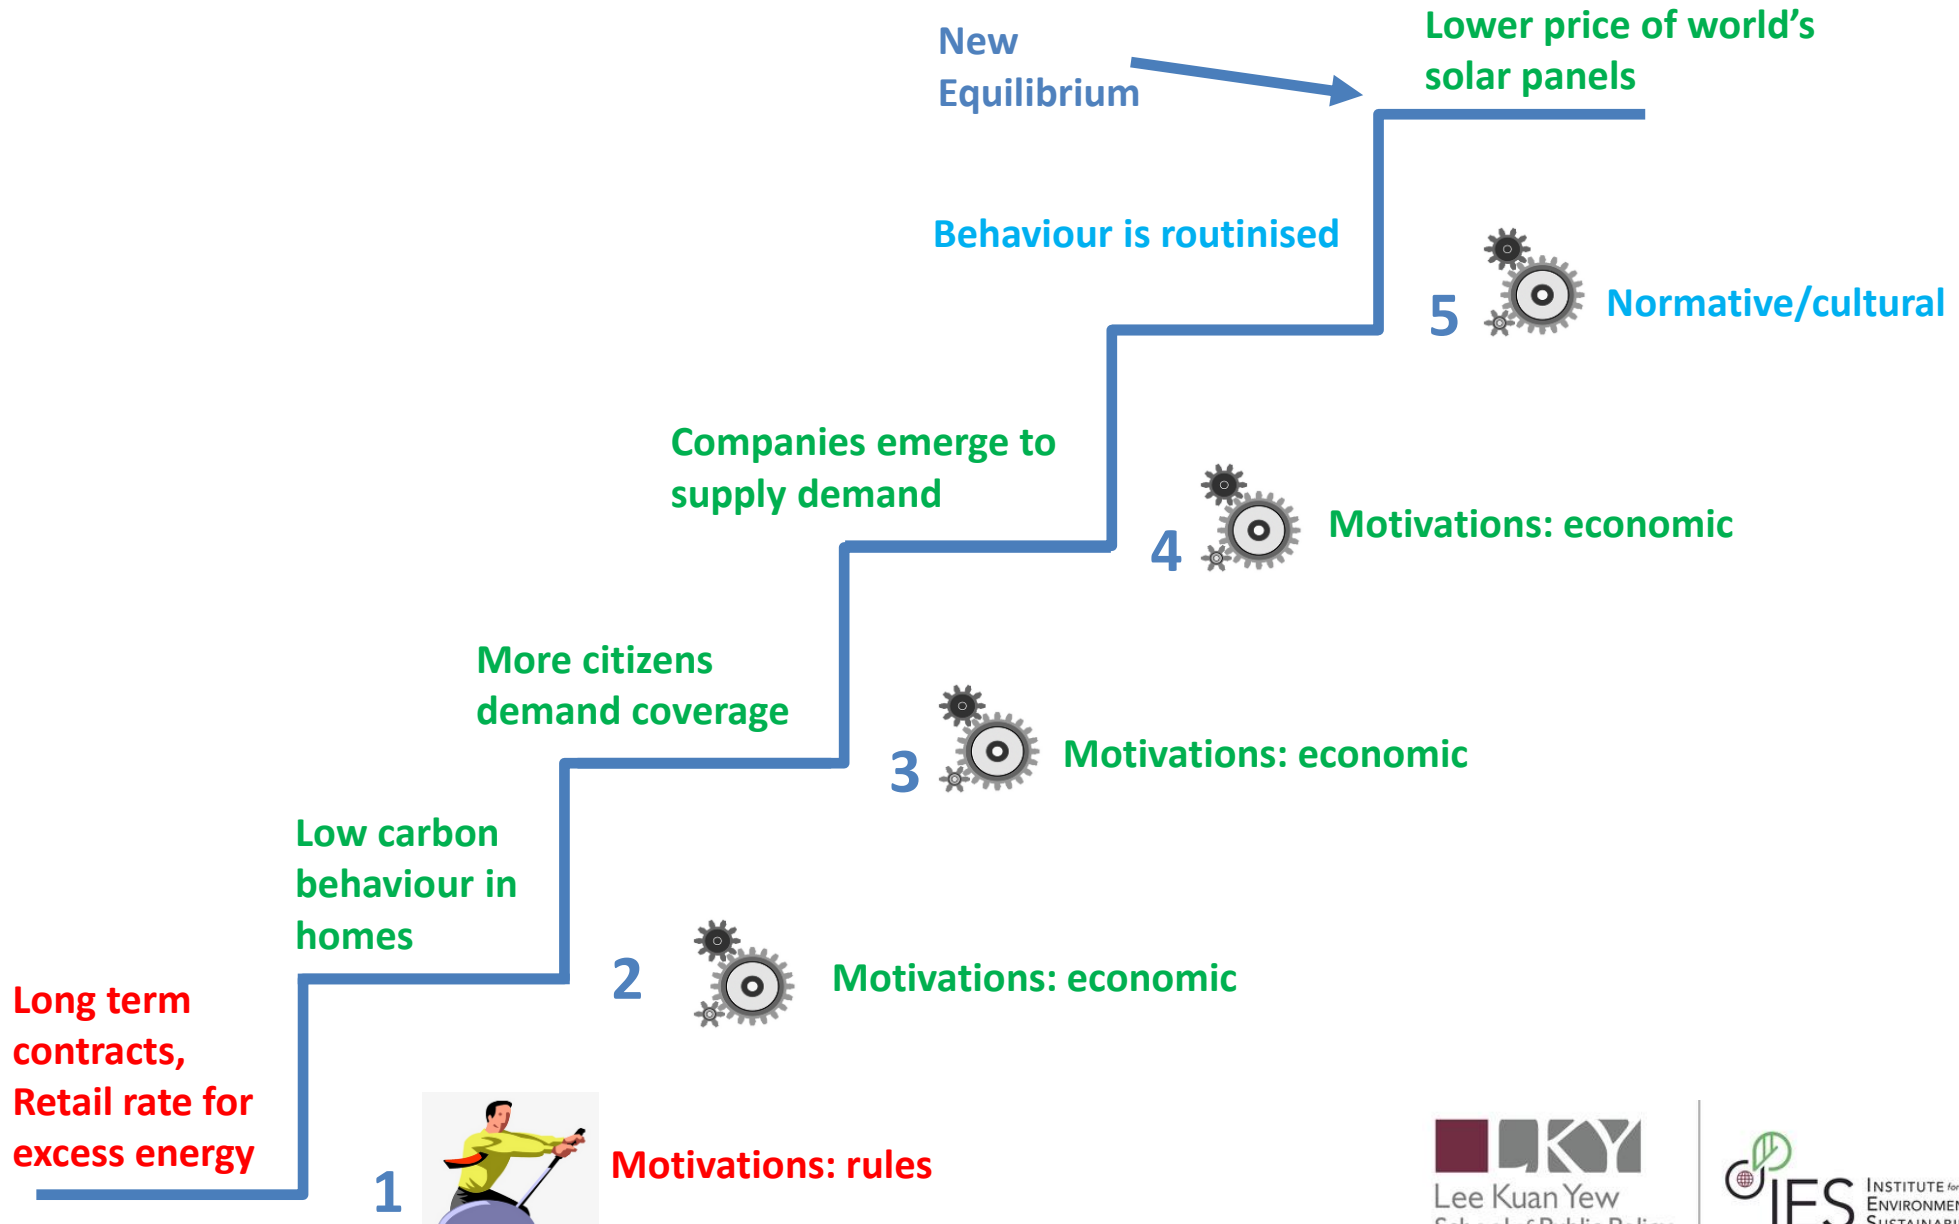

# Example #1: Germany's Feed-In-Tariff

## Renewable Tariffs & Solar Photovoltaics in Germany

Paul Gipe, wind-works.org

# Germany's Feed-In-Tariff Policy Pathway

## **Example #2:**

**Policies accelerate decarbonization and equity, creating mutually compatible reinforcing effects**

# Example #2: British Columbia's Carbon Tax
