

# Benchmarking local climate policies

## - qualitative and quantitative results

## USA – GERMANY – JAPAN LOCAL GOVERNMENTS CLIMATE PARTNERSHIP

### Come, exchange and network at the

# Climate Cocktail

More information:

Results of Climate Alliance's "Benchmarking Local Climate Protection" demonstrate the qualitative and quantitative contributions of local governments to national and international climate targets.

In light of the national framework conditions in Germany, concrete **Solutions for Change** and their results in figures will be presented.

#### With inputs from:

- ▶ Dr. Peter Pichl, German Federal Environment Agency
- ▶ Ulrike Janssen, Climate Alliance
- ▶ Prof. Tsuneo Takeuchi, Nagoya University
- ▶ Rainer Scheppelmann, City of Hamburg
- ▶ Kae Murakami, City of Hiroshima

#### The Local Governments Climate Partnership

aims at replication of such solutions by exploring local potentials for action and mutual learning. Climate Alliance has brought together cities in Germany, Japan and the USA with the aim to activate existing town twinnings for the topic of climate change policies.
