November 16, 2022 11:30 am - 1:00 pm EET

Side Event Room: Amon

*Financing a fair energy transition requires a shift away from fossil financing. Instead, governments are doubling down on dangerous distractions, including gas, fossil hydrogen and CCUS. This event will provide insights and key learnings from Brazil, Argentina, South Africa, Canada and India.*

*Speakers from the International Institute for Sustainable Development, Fundación Ambiente y Recursos Naturales, Instituto de Estudos Socioeconômicos and Environmental Defence Canada will discuss the challenges and opportunities for ending fossil fuel subsidies and reflect on false solutions.*
