Climate Action for Improved & Sustainable Livelihoods (CAISL)

CAISL in Nebbi District in Uganda

July 2023 – December 2024

The goal of the intervention is to make **Nebbi** a model district in climate mitigation measures, community resilience, accessibility to local sustainable solutions and advocacy skills.

Trainer trained by JEEP when training others

JEEP + UCSD leading discussions and adding knowledge

JEEP Green Ambassadors and local youth creating new activities

Stove

LED lamp

CAISL focuses on:

- Youth and women participation
- Climate change mitigation measures and renewable energy
- Building community resilience
- Training and practice in advocacy for improved and sustainable livelihoods
- Awareness through local media
- Demonstration, construction and distribution of energy saving stoves etc.
- Installation of LED light in schools
- Local seed collection and tree growing

All in cooperation with trained trainers, community-based organisations, local government officials and politicians

During Energy Hubs information is shared and stoves / solar lamps / seedlings are made accessible

The intervention contributes to the following UN Sustainable Development Goals (SDGs):
