

# SIDE EVENT AT SBSTA 34

Bonn, Germany, 6–17 June 2011

## Climate Services for Adaptation

This side event is organized by the World Meteorological Organization (WMO), in partnership with Global Climate Observing System (GCOS), the UN's Food and Agriculture Organization (FAO) and Deutscher Wetterdienst (DWD). It will provide information on the "Global Framework for Climate Services (GFCS)" established by the World Climate Conference-3 (WCC-3). GFCS guides the development of climate services that link science-based climate predictions and information with climate-risk management and adaptation to climate variability and change throughout the world.

**Wednesday, 8 June 2011, 18h15 - 19h45**

**Venue: TRAM**

## Programme

- |       |   |
|-------|---|
| 18:15 | <b>Opening remarks</b><br>M.V.K. Sivakumar, Director of Climate Prediction and Adaptation Branch, WMO                             |
| 18:25 | <b>Role and Value of Systematic Observations in Adaptation</b><br>Carolyn Richter, Director, Global Climate Observing System, WMO |
| 18:40 | <b>Climate Services for the Agriculture Sector</b><br>Peter Holmgren, Director, Climate, Energy and Tenure Division (NRC), FAO    |
| 18:55 | <b>Climate Services Information System (CSIS)</b><br>Stefan Rösner, Regional Climate Monitoring Division, DWD                     |
| 19:10 | <b>Interactive Panel Discussion</b>   |
| 19:35 | <b>Wrap up and closing remarks</b>  |
