

**The Australian National Association of Forest Industries and ForestWorks invite you to a  
COP 16 side event**

## **Accounting for the land sector in practice: A comparison of domestic policies and options**

**Friday 3<sup>rd</sup> December**

**4.45pm – 6.15pm**

**Room Águila, Cancun Messe**

At a time when forests are a focus of the climate change negotiations, this event looks at domestic approaches to forest sector mitigation and adaptation. Speakers from Australia, New Zealand and the United States will detail policies and activities on forest mitigation, adaptation and sustainable forest management. What are the different rationales? How will the international negotiations influence domestic approaches in the future?

**Chair: Bob Smith, ForestWorks**

**Speakers include:**

- **Mick Stephens, Australian National Association of Forest Industries**
- **David Rhodes, New Zealand Forest Owners Association**
- **Lennart Ackzell, Federation of Swedish Family Forest Owners**
- **Richard Birdsey, USDA Forest Service**
- **Alexandre Meybeck, FAO**
