

– A Joint E3G-NRDC Side Event –

Supporting technology, finance, deployment and innovation in developing countries

Date & Time: 4th December 2008, Thursday at 1-3 pm

Location: Fox Room

Critical discussions are unfolding around how to support technology deployment incentives in the post-2012 architecture. This side event will explore key elements to achieve low carbon and climate resilient development in relation to technology, finance and deployment mechanisms for innovation, and new approaches for dealing with intellectual property rights issues.

Agenda

Chair: Jennifer Morgan, Director, Global Climate Change (E3G)

| Question & Answer session |

About E3G

E3G is an independent, non-profit European organisation operating in the public interest to accelerate the global transition to sustainable development. E3G builds cross-sectoral coalitions to achieve carefully defined outcomes, chosen for their capacity to leverage change. E3G works closely with like-minded partners in government, politics, business, civil society, science, the media, public interest foundations and elsewhere. More information is available at www.e3g.org

About NRDC (Natural Resources Defense Council)

NRDC is the nation's most effective environmental action organization. We use law, science and the support of 1.2 million members and online activists to protect the planet's wildlife and wild places and to ensure a safe and healthy environment for all living things. More information is available at www.nrdc.org
