INFORSE is a network of 165+ member organisations worldwide working for implementation of sustainable energy solutions by exchange of information, awareness creation, formulation and implementation of strategies, and lobbying of international forums.

Vision: A world where energy services that are necessary for a just and human centered development, are provided in a sustainable way using renewable energy.

Mission: INFORSE is a global network of independent non-governmental organisations working for sustainable energy solutions to reduce poverty and protect the environment.

INSEDA and **AIWC** are members of **INFORSE**. **INSEDA**-is South Asia Coordinaror, and **AIWC** is gender focal point of **INFORSE**.
