Climate Recon 2050: Dialogues on Pathways and Policy

Essential context on long-term strategies

Part 1: Overview on state of play in the EU

- Insights from ongoing research projects (Ecologic)

Part 2: Member State examples – strategy development and stakeholder participation

- Eduardo Santos, Portuguese Environment Agency
- Gwenaël Podesta, French Ministry for an Ecological and Solidary Transition

Climate Recon 2050: Dialogues on Pathways and Policy

PARIS AGREEMENT:

Article 4

19. *All Parties should strive to formulate and communicate **long-term low greenhouse gas emission development strategies**, mindful of Article 2 taking into account their common but differentiated responsibilities and respective capabilities, in the light of different national circumstances.*

Decision text:

35. *Invites Parties to communicate, **by 2020**, to the secretariat mid-century, long-term low greenhouse gas emission development strategies ...*

EU legislation: Regulation for the Governance of the Energy Union

CHAPTER 3

LONG-TERM STRATEGIES

Article 15

Long-term strategies

1. Each Member State shall prepare and submit to the Commission by 1 January 2020, and subsequently by 1 January 2029 and every 10 years thereafter, its long-term strategy with a perspective of at least 30 years. Member States should, where necessary, update those strategies every five years.

FUNCTION of long-term strategies

- **Direction:** signalling long-term course
- **Commitment:** establishing a decision for change
- **Awareness:** bring others on board
- **Exploration:** find out what is needed
- **Management platform:** organise the transition

CONTENT of long-term strategies

- **Targets** (long-term and interim)
- Possible **trajectories** (sometimes several)
- **Sector specific** pathways (incl. with targets)
- Next steps: **policies** and measures
- Follow-up processes (**governance**)

GENERAL OBSERVATIONS

- **DIVERSITY... in all aspects:**
 - Format and level of detail
 - Development process
 - Legal (and political) status
 - Governance processes (follow-up)
 - Long-term ambition

Member State	Long-term strategy status	Reduction target ¹	Includes other targets	Includes milestones	Sectoral coverage	Legal form	Leading Ministry / Department
Austria	No information found

PMP1: First meeting of the Policymaker Platform

The first meeting of the Climate Recon 2050's Policymaker Platform took place in early April 2018 in Berlin and included representatives from more than 10 Member States.

Event Date:
10 April 2018
Event Location:
Berlin, Germany

SB48 Side Event: Long-Term Climate Strategies and Stakeholder Engagement

Article 4.19 of the Paris Agreement invites Parties to develop "long-term low greenhouse gas development strategies", and their development will soon become a separate legal obligation in the EU.

Event Date:
09 May 2018
Event Location:
Room Berlin, Bonn, Germany

Long-term strategy	Reduction target	Includes other targets	Includes milestones	Revised strategy	Legal base	Leading Ministry / Experts
