EXHIBITION

3-14 December, 2018

SIDE EVENT

7 December - 15:00-16:30

Room: Warmia

**Local Benefits of Large-Scale Renewables,
Development of a Guideline
Based on Experiences from West Africa
&
Eco-Village Development in India**

UNFCCC COP24 SIDE EVENT

7 December, 2018 (Friday)

15:00 – 16:30, Room Warmia

INFORSE - ENDA ENERGIE - INSEDA

Title: Local Benefits of Large-Scale Renewables, Development of a Guideline Based on Experiences from West Africa & Eco-Village Development Activities in India / South Asia

How can solar- and windpower parks benefit the local communities and not harming them?

--Results of West African civil society organisations' work with stakeholders; Proposals for a guideline.

Impacts of implementation of Eco Village Development in India/South Asia.

Speakers include:

- Secou Sarr, ENDA, Senegal;
- Ousmane Ouattara, Mali Folkecenter;
- Charles Konseibo, CEAS, Burkina Faso;
- Repr. of Ecowas Center for Renewable Energy and Energy Efficiency (ECREEE);
- Seyni Nafo, African Renewable Energy Initiative (tbc)
- Gunnar .B. Olesen, INFORSE Secretariat. Repr. of INSEDA, India.

Discussion: How do we make the increasing number of large-scale renewables a benefit for the local society; What should be the role of a regional or international guideline; How do we include this in NDCs?

Organised by International Network for Sustainable Energy (INFORSE); ENDA-Energie; Integrated Sustainable Energy and Ecological Development Association (INSEDA), India.
