

Forest turned into animal feed

Soy and corn used as animal
feed are increasing
deforestation in Brazil

Naira Hofmeister, investigative journalist
[Repórter Brasil](#)

Founded in 2001 by journalists, social scientists and educators.

One of the important source of information on slave labour in Brazil and on socio-environmental impacts of supply chains.

Some of supply chains we investigate

Beef

Soy and corn

Coffee

Palm oil

Cocoa

Wood

Orange

Sugar cane

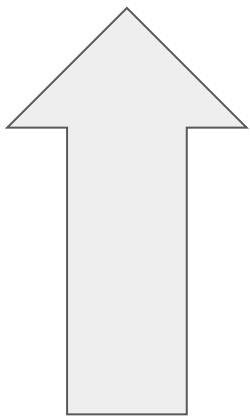

Tobacco

Mining

Fashion industry
