

Join us for the IFRC side event

Ensuring sustainable funding for community resilience and DRR in a changing climate

Time:
**Monday 3
December 2012
16:45-18:15**

Venue:
**Side event
Room 6,
Hall 5**

Join us for a dynamic discussion on:

- improving channelling of funds to the local level to support risk reduction and climate change adaptation initiatives
- initiatives to support greater investments in resilience building at community level

Broader resources are needed to strengthen risk reduction and resilience building at community level. This event will discuss with donors and recipient countries existing and planned funding mechanisms and how to improve channelling of funding to the local level and enable longer-term planning.

Moderator:

Dr José Romero, Swiss Focal Point for the UNFCCC and the Kyoto Protocol and Head of Section, Federal Department of the Environment, Transport, Energy and Communications.

Participants:

- **Mr Arvinn Gadgil**, State Secretary in the Ministry of Foreign Affairs of Norway

- **Mr Heru Prasetyo**, Indonesian President's Delivery Unit for Development Monitoring and Oversight and member of the National REDD+ Task Force
- **Mr Michael Mullan**, Team Leader, Climate Change Adaptation and Development, Organisation for Economic Co-operation and Development (OECD)
- **Ms Bonizella Biagini**, Head Adaptation Program, Global Environmental Facility (GEF)
- **Prof. Richard Calland**, Co-Director of the Climate Finance Hub, African Climate Development Initiative
- **Mr Gustavo Lara-Tapia**, Secretary General Red Cross Society of Dominican Republic
