Operationalizing co-benefits in carbon market mechanisms opportunities and challenges

GERMAN PAVILION THURSDAY 9th NOVEMBER 2017 17:00-17:45

In order to design and operate the mechanisms established in Article 6 of the Paris Agreement with a high degree of legitimacy, the mechanisms' design ought to ensure that activities supported by market instruments effectively promote sustainable development (SD) of participating countries. This side event explores options for further enhancing the role of SD-benefits in future market mechanisms under the UNFCCC.

Welcome and Moderation:

Frank Wolke German Emissions Trading Authority CDM EB Vice-Chair

Presenters:

Matthias Krey

Owen Hewlett Chief Technical Officer **Gold Standard Foundation**

Senior Advisor Perspectives Climate Group

Barriers and solutions for operationalizing co-benefits in carbon market mechanisms

Best practice examples for accounting for SD-benefits - examples from the Gold Standard

An official UNFCCC COP23 Side Event
