

REDD+

Persistent Issues & Recommendations for Doha & Beyond

Tuesday, 27 November 2012, 15:00 - 16:30 Side Event Room 7

The Ecosystems Climate Alliance invites you to a discussion on the persistent problems and most pressing issues for the future direction of REDD+.

Presentations will highlight the need for decisions in Doha regarding MRV and financing of REDD+ actions. Discussions will also address the need for further work on stakeholder involvement and on tackling the drivers of deforestation and forest degradation, with an emphasis on international drivers.

Paying for More than Carbon, A Proposal to the UNFCCC

Nils Hermann Ranum – Rainforest Foundation Norway

MRV of peat soils under REDD+

Professor Hans Joosten – Institute of Botany and Landscape Ecology, Ernst-Moritz-Arndt-University, Greifswald, Germany

Agricultural Drivers: Key Questions about Cattle Ranching Intensification Projects (CRIPS)

Geoff Orme-Evans – Humane Society International

Intentional Governance of REDD+: A stakeholder-driven model for involvement in REDD+ Standards Setting

Dr Tim Cadman - UNU Institute for Ethics Governance and Law, Griffith University, Australia

Addressing Drivers at Multiple Levels for REDD+ Success: Fundamental Issues, Diverse Challenges and Recent Developments

Megan Dickie – Environmental Investigation Agency

The Ecosystems Climate Alliance (ECA) is an alliance of NGOs committed to keeping natural terrestrial ecosystems intact and their carbon out of the atmosphere. We work to ensure this is done in a way which is equitable, transparent, consistent with the rights of indigenous peoples and local communities, and which takes place alongside deep and urgent cuts in fossil fuel emissions.
