

THE MONTREAL PROTOCOL & CLIMATE CHANGE

LESSONS FOR SUCCESS

Tuesday, 4 December 2007

6:00 p.m. – 7:30 p.m.

Solar Room, Grand Hyatt

This side event will present lessons from the Montreal Protocol's success in protecting the ozone and the climate, including its governance structure, financial and technology transfer mechanisms, and other features key to solving global environmental problems through international cooperation.

Co-sponsored by the Governments of Argentina, Mauritius, Micronesia, Sweden, and the United States, as well as the United Nations Environment Programme's OzonAction Unit and the Institute for Governance & Sustainable Development.
