

COP 27 EXHIBITION

Theme: Accelerating a clean and inclusive energy transition in Africa: The role of public finance in the energy transition

Description: Delivery of a clean just and inclusive energy transition in the African context requires a shift in policy, finance, and planning to ensure that an energy transition meets the needs of the people while ensuring a net-zero pathway with stronger commitment by governments and multi-lateral banks to the process. The organizing team will share successes from interventions delivered through public private partnerships as well success stories from local-led climate actions.

Materials: Video highlighting the impact story, biodegradable posters, infographs e.t.c
