

Climate Change Expert Group Side Event

Article 6 negotiations: Technical analysis of key issues for markets

Wednesday 19 June, 15:00-16:30

Room Bonn

SBI 50, SBSTA 50, Bonn, Germany

The OECD/IEA Climate Change Expert Group (CCXG) Secretariat will highlight findings from recent analysis on key technical issues that remain unresolved in markets negotiations under Article 6. They will be joined by technical experts and negotiators who will provide further insights. In particular, the panellists will discuss issues related to Article 6.2 accounting and to the potential transition of activities and transition of units from the Clean Development Mechanism (CDM) to the Article 6.4 mechanism.

Chair: Helen Plume (New Zealand; CCXG Chair)

Panellists:

- **Manasvini Vaidyula** (OECD)
- **Luca Lo Re** (IEA)
- **Stephanie La Hoz Theuer** (ICAP and Adelphi)
- **Dirk Forrister** (IETA)
- **Other Speakers** (tbc)

Main discussion questions:

1. How can Parties ensure environmental integrity and avoidance of double counting when using accounting methods to apply corresponding adjustments for ITMOs?
2. What are the implications of any possible carryover of activities and units issued under the Kyoto Protocol mechanisms to the Article 6.4 mechanism?
