MEDIO AMBIENTE Y
RECURSOS NATURALES

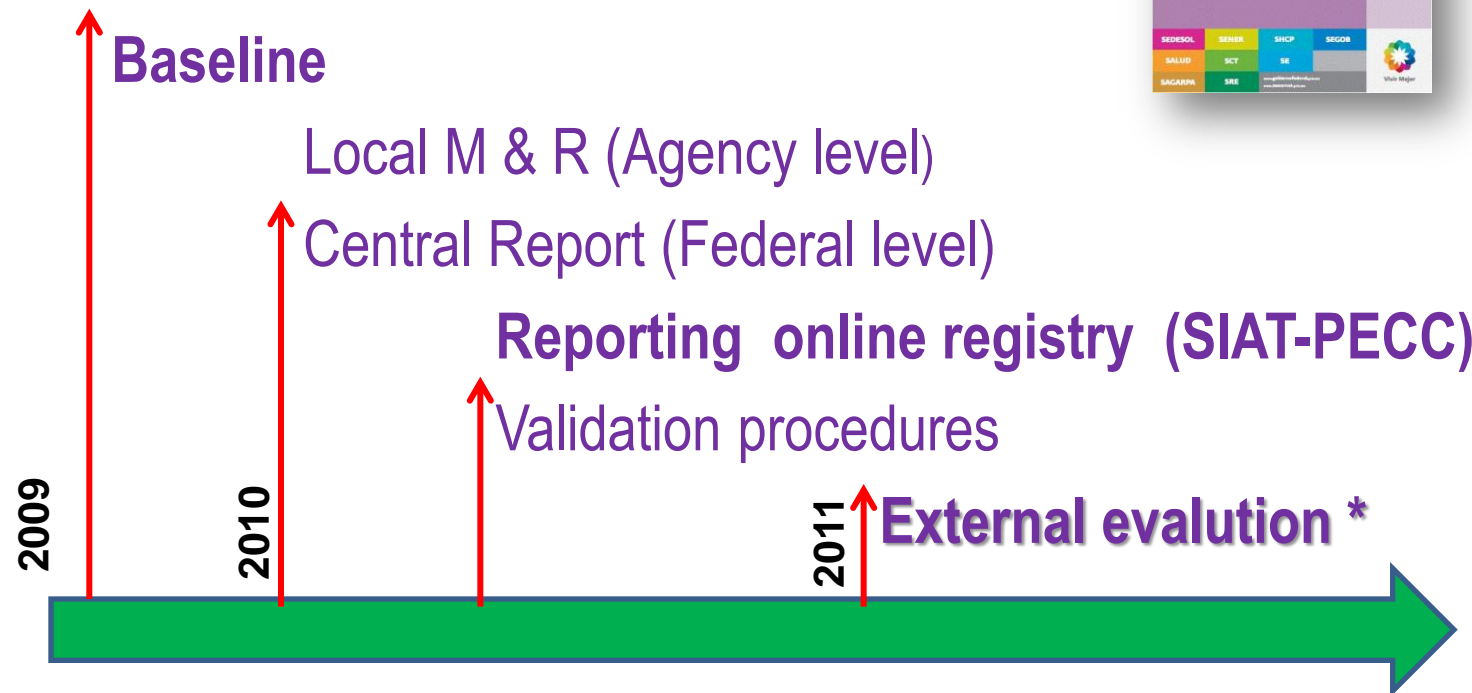

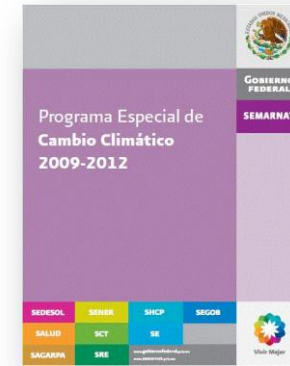

December 2012

Mexico's Special Climate Change Program (PECC)

SEMARNAT

- Published in 2009 with 86 specific mitigation goals accounting for 50.6 MtCO_{2e}
- Design and implementation in need of:

**Will be presented in Mexican side event*

MRV on other Mitigation Projects

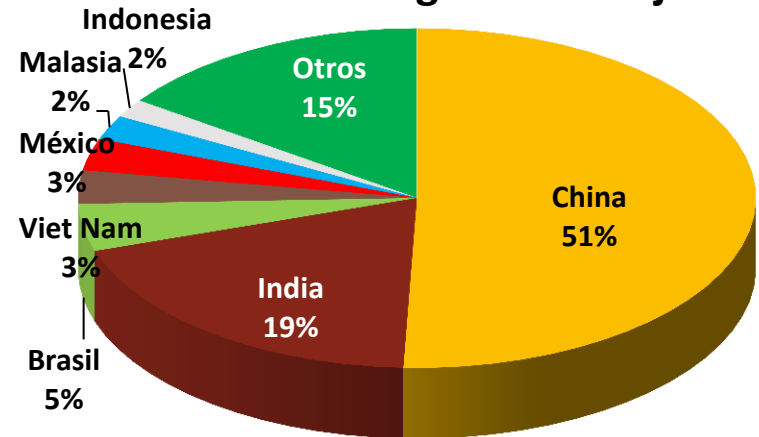

SEMARNAT

• CDM

- *International:*
very sophisticated MRV system
- *Domestic:*
simple registry

*Registered Projects:4685

• NAMAs (in design)

- *Registry* (*Build upon UNFCCC NAMA Prototype*)
- *Specific MRV*
 - *Solid but not a burden*
 - *Realistic, Adequate*

New housing

Housing improvements
Water Efficient appliances
Refrigerators (EE & HFCS)
Urban Transport
Urban Services
Chemical industry

Minery

Freight Transport
Solar energy in industrial areas
Cement
Oil & Gas
EE in MSE

- Criteria to MRV (differentiated by type of NAMA)
- Stakeholders & role (who and how)
- Transparency & Reliable data
- “Standardized” baseline methodologies
- Monitoring methodologies
- Realistic timeline of monitoring and verification
- Report of co-benefits

- Costs
- Lack of national capacities on M, R, V
- Need of new institutional arrangements
- National authorities for verification
