

AGENDA (26 May 2022)

Side Event | Bonn Climate Change Conference (SB 56)

Dialogues on capacity building needs for the implementation of Article 6

Wednesday, 08 Jun 2022
11:30—13:00 Room Bonn

Background

Decisions in Glasgow on Article 6 of the Paris Agreement elaborated the specific focus areas for capacity building across Article 6.2 and 6.4.¹ Meanwhile the relevance of cooperative approaches in the context of NDC implementation has doubled. The share of Parties that indicated that they plan or will possibly use voluntary cooperation in at least one of its scopes has increased from 46 to 85 per cent in the new or updated NDCs compared with those Parties' previous NDCs.

Objective

The Regional Dialogues on Article 6 Capacity Building Needs aim at gathering information on the capacity building needs of the countries. The dialogue on Article 6 Capacity Building Needs will focus on debriefing on relevant COP26 outcomes on Article 6 including CDM transition and to understand capacity building needs regarding participation requirements for all aspects of Article 6 and to allow for Parties to meaningfully engage in CDM transition.

The outcome of this event along with three regional dialogues and a virtual survey will be synthesized along with inputs from additional events held during 2022, in the context of identification of capacity building needs related to Article 6. The Dialogues are also an opportunity to enhance awareness on COP26's key outcomes and decisions focusing on Article 6 and CDM transition.

Target Participants

UNFCCC National Focal Points, CDM Designated National Authorities, development organizations and stakeholders.

Link to the Regional Dialogue

The event will take place in Bonn, Germany at the margins of the Bonn Climate Change Conference (SB 56). The event will be broadcaster and a link will be provided over the SB56 Event Platform closer to the date. For active participants (NFPs and DNAs), registration the is required.

¹ 2/CMA.3 and 3/CMA.3
