

## Developing country participation in mitigation An India Inquiry

Wednesday, 11 June 2008, 18:00-20:00

Venue: MoE, Wind

While low cost mitigation options can be found in developing countries, longer-term development requires mitigation especially in rapidly growing power and transport sectors. Reporting on research performed jointly by TERI and CICERO, technology and investment requirements in select sectors will be presented, and implications for a climate regime with broad participation would be discussed.

### Draft Programme

#### **Welcome and introduction**

Dr. Prodipto Ghosh, Distinguished Fellow TERI and Former Secretary, Ministry of Environment and Forests, Government of India

Mr. Havard Toresen, Deputy Director General, Ministry of the Environment, Norway

#### **An analysis of key mitigation option in the context of India's development: Key Finding of the CICERO-TERI study**

Dr. Gunnar Eskeland, CICERO and Dr. Vivek Kumar, TERI

#### **Panel Discussion**

Dr. Ajay Mathur, Director General, Bureau of Energy Efficiency, Government of India

Dr. Christian Egenhofer, Senior Fellow, Centre for European Policy Studies

Ms Heleen de Coninck, Group manager, International Climate and Energy Issues, ECN, Netherland

China

Japan

IEA

#### **Closing Remarks**

Mr. Havard Toresen, Deputy Director General, Ministry of the Environment, Norway

Dr Prodipto Ghosh, Distinguished Fellow TERI and Former Secretary, Ministry of Environment and Forests, Government of India
