The Art of being a Woman:
An interest You and your Avon Representative share

Beauty is important to your neighborly Avon Representative. How to put on makeup, what's new in color, fashion, complexion care—these are her interests, too. Every day your Avon Representative perfects the art of being a woman, at home. Then, when she calls on you—she shares her time and knowledge with you. She always brings beauty ideas, cosmetics and fragrances to please you. So take a little time for yourself. Have an Avon beauty chat.
