

Mitigation and Adaptation Planning in Developing Countries and Japan's Cooperation

Date: Tuesday, 29 November 2011
Time: 18:30—20:00
Venue: Apies River, Durban Exhibition Centre

In realizing a low carbon and climate change-resilient society, mitigation and adaptation planning is a key. Driven by strong desire to cope with climate change and to realize sustainable development in such a context, as well as the international negotiation, various efforts for planning, and strengthening such efforts are in progress in developing countries. The Side Event introduces most updated information on relevant activities in developing countries and cooperation by Japan. The Event will be chaired by Mr. Taka Hiraishi, IGES.

Agenda (as of November 20, 2011)

18:30-18:35 Opening Remarks by Mr. Taka Hiraishi, IGES

Part I: Mitigation and Adaptation Planning- where are we so far?

18:35-18:45 Where are we so far? – Findings from Japan's cooperation activities and OECC's Survey by Mr. Jiro Ogahara & Mr. Makoto Kato, OECC

18:45-18:55 JICA's Capacity Development Cooperation on GHG Inventory in Indonesia by Ibu Wukir A. Rukmi, Ministry of Environment, Indonesia & Mr. Masato Kawanishi, JICA
