GFOI side-event @ Bonn UNFCCC meeting (SB44)

Friday 20 May 2016 from 18:30 to 20:00

Location: Berlin Room (112)

The Global Forest Observations Initiative (GFOI) invites you to attend a side event on 20 May 2016 at the UNFCCC's Climate Change Conference in Bonn (SB44).

Through collaborative action, the GFOI seeks to provide strategic assistance to emerging countries in the development of national forest monitoring systems and associated emissions measurement, reporting and verification (MRV) for REDD+.

This side event will showcase GFOI activities and the value of collaboration in this fast growing and vitally important field in the battle against climate change. This includes the presentation of **REDDcompass**, GFOI's new tool for assisting countries to develop forest monitoring and MRV systems (gfoi.org/reddcompass). All of GFOI's components will be presented including; Capacity Building by SilvaCarbon and UNREDD, Methods and Guidance Documentation (MGD) led by Australia, R&D Coordination by GOFC-GOLD and Space Data Coordination by CEOS.

The side event will provide an opportunity for discussion with some GFOI partners and experts.
