

# Co-benefits Approach

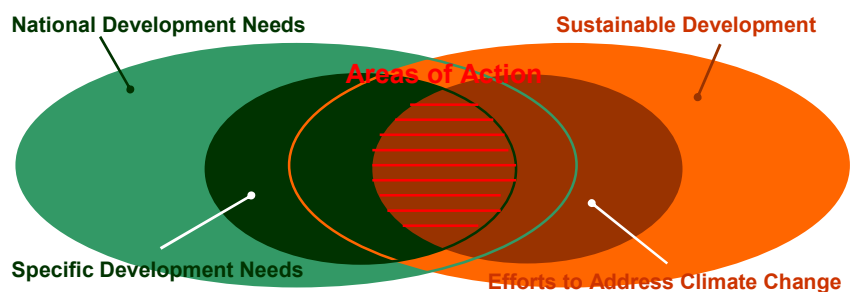

-Development Needs Oriented Efforts to Address Climate Change and CDM-

Taka HIRAISHI  
Institute for Global Environmental Strategies (IGES)

*COP13 and CMP3 Side Event "Co-benefits Approach"*  
18:00-19:30, 6 December 2007, Bali, Indonesia

# Co-benefits Approach

Developing Country Needs=Sustainable Development  
>>>Great Potential to contribute to efforts to address climate change

## What we have done...

- Policy Survey on Co-benefits Approach in 2006
  - 1) Meeting including Development community
  - 2) Survey on SD Needs in host countries
- Multilateral and Bilateral Dialogues
  - Asia-Pacific Seminar on Climate Change
  - Side Event of UNFCCC/KP Meetingsand further
- Attention to "Co-benefits Approach" in developing country partners and relevant stakeholders is rapidly growing

## What we discuss...

- To introduce Japan's Initiative on Co-Benefits Approach and exchange views and experiences
  - To enlarge partnership with developing countries
  - To strengthen partnership with agencies such as development assistance agencies, international agencies, and so on
  - To develop co-benefits projects in partner countries through CDM, ODA and other schemes
- What is your advice to the Japan's Initiatives on Co-benefits Approach?

## Today's presentations

- *Mr. Kotaro Kawamata*  
Deputy Director, Climate Change Division, MoEJ
