# Piloting interventions and cooperation among participating countries: Kenya Country Experience

Global Meeting of Project Board and National Project  
Managers –Bonn, Germany 18<sup>th</sup> & 19<sup>th</sup> May, 2012.

*Dr. Ombacho and Isaac Ruttoh*

# Approaches

---

- Establishment of sector specific ICCs and working groups
- Use of common information exchange portal
- Regular technical report sharing (quarterly) documenting best practices with collaborating partners and participating community units (WHO, Districts, Media, ICCs)

# Lessons

---

- Information sharing amongst stakeholders builds confidence in the management of country coordination strategies
- Creates long-term working relationships
- Demystifies assumed bottlenecks
- Leverages resources and comparative advantage amongst partners

# Challenges

---

- Variance in stakeholder strength and influence
  - Financing levels and conditions
  - Annual budget cycles and funding mechanisms amongst organizations
  - Changing global agenda (WHA outcomes such as transitioning to NCDs)
  - M & E integration
  - Duplication of activities
