

National Engagement for Low Emission Development Pathways

ROOM NAREW

MONDAY 3rd DECEMBER 2018

18:30-20:00

This side event discusses the role of governments, regional actors, civil society and the private sector in defining and implementing low emissions development pathways. Speakers will present and exchange their experiences and views about the Low Emission Development Strategies (LEDS) with case studies from Tunisia, India and the PRINDCISSA research project.
