

## Sparing vs. Sharing: Addressing drivers of deforestation and forest degradation

---

The [WorldAgroforestry Centre](#) (ICRAF) and the [Alternatives to Slash-and-Burn \(ASB\) Partnership for the Tropical Forest Margins](#) (ASB) invite you to a side event at the 34<sup>th</sup> session of the Subsidiary Body for Scientific and Technological Advice (SBSTA) in Bonn, Germany.

**Venue: Wind Room, First floor, Ministry of the Environment, Robert-Schuman-Platz, Bonn** **Date: Wednesday, 8 June 2011** **Time: 20:00-21:30hrs**

---

**Title:** Sparing vs. Sharing: Addressing drivers of deforestation and forest degradation

### Abstract:

Most drivers of deforestation lie outside the forest and must be properly addressed in order to be effective. Agricultural intensification, either by separating the two domains or by creating polycultural landscapes are two ways to reduce pressures on forests.

### Programme:

Chair: Henry Neufeldt

Rapporteur: Florence Bernard

### Presentations:

- Introduction to event especially “sparing” and “sharing” as relates agricultural drivers of deforestation. (2mins) *Henry Neufeldt*, [WorldAgroforestry Centre](#)
- Reflections on the “Sparing” hypothesis: global and meso level evidence (15 Mins)- *Peter A Minang*, [Alternatives to Slash-and-Burn Partnership for the Tropical Forest Margins](#)
- Reflections the “sharing” hypothesis: global and meso level evidence from multifunctional land use research (15 mins)- *Meine van Noordwijk*, [WorldAgroforestry Centre](#)

### Panelists:

- Lini Wollenberg – [Climate Change Agriculture and Food Security \(CCAFS\)](#) and [University of Vermont](#)
- Doug Boucher - [Union of Concerned Scientists \(UCS\)](#)
- George Wamukoya - [Common Market for Eastern and Southern Africa \(COMESA\)](#)
