

GOFC-GOLD & Coalition for Rainforest Nation Side Event

Wednesday, 03 December 2008 at 18:00-19:30

Room: Aesculapian snake

First Section:

Topic: *“Monitoring REDD using the GOFC-GOLD Sourcebook: practical examples for data collection”*

Outline: An updated version of the GOFC-GOLD REDD sourcebook offers technical guidance for collecting key data for national REDD implementation activities and capacity development

Presentations:

1. Sourcebook update - overview and summary of new sections (*Frédéric Achard*)
2. Critical issues and evolving technologies (*Martin Herold*)
3. The PNG national monitoring system: the methodological approach (*Danilo Mollicone*)
4. Community-based approaches (*Patrick van Laake*)

Second Section:

Topic: *“REDD Capacity Development: country needs and current initiatives”*

Outline: Decision 2/CP.13 requests developing countries to set up monitoring and reporting system for data collection and emissions estimate on deforestation and forest degradation; and in the meanwhile encourages Parties in a position to do so to support capacity building on monitoring and reporting. Many capacity development activities have already started; country and cooperation agencies delegates will discuss on how to strengthen these activities in the framework of the Convention

Presentations:

1. CfrN/GTZ capacity development REDD (*Reinhard Wolf*)
2. UN-REDD Programme (*Peter Holmgren*)
3. Forest Carbon Partnership Facility of World Bank (*Benoit Bosquet*)

Panel discussion:

Theo Yasause (PNG), Joe Amogou (Cameroon), Leonel Iglesias-Gutiérrez (Mexico), Gustavo Fonseca (GEF), Peter Holmgren (UN-REDD), ESA (Frank-Martin Seifert)
