Incentives for avoiding emissions from tropical peatlands

PANEL DISCUSSION:

- 1. The peatland priority:** Should securing peatland carbon stocks be made a higher priority by Conventions, major donors and finance institutions?
- 2. Are peatlands an attractive investment in the carbon market?**
- 3. NGO-Corporate partnership & fund:** a reliable and efficient mechanism for change?
- 4. Community ownership:** Is it possible to engage local communities sufficiently and equitably in projects set up to generate VERs?
