

Side Event Announcement COP 15

Carbon Capture & Storage

New Research Directions on Politics, Promises and Pitfalls of CCS

Date: Saturday December 12, 9:00-10:30 am

Location: Room Liva Weel

What are the policy challenges, risks and benefits
of deploying CCS as a climate mitigation option?

A global consortium of researchers funded by the Swedish Foundation for Strategic Environmental Research (Mistra) and coordinated by Lund University presents key results that provide an independent scientific assessment of the politics and policy of CCS.

Chair: Michael Oppenheimer, Professor, Princeton University, USA

Karin Bäckstrand, Associate Professor, Lund University, Sweden

Heleen de Coninck, Senior Researcher, Energy Research Center, Netherlands

James Meadowcroft, Professor, Carleton University, Canada

Jennie Stephens, Assistant Professor, Clark University, US

Asbjørn Torvanger, Senior Research Fellow, Cicero, Norway

Philip Vergragt, Professor, Tellus Institute, US

The side event will be followed by a reception serving brunch.
