International Sectoral Approaches

Wednesday 7, December 2005

19:30-21:00

Room: Bay du Nord River

Reception with Light Snacks in front of Bay du Nord River at 18:45

CPEQ and the WBCSD will explore an industry sector-based approach and its potential ability to contribute to combating climate change.

Opinions from various sector approaches will be presented. Discussions will include the definition of sectors and whether a sectoral approach is an efficient and viable route to engage more players and warrant a level playing field.
