

Agricultural Solutions to Support Food Security, Sustainability, and Animal Welfare

FRIDAY DECEMBER 2, 2011:

15:00 -16:30

Hex River Room- Durban Exhibition Centre (DEC)

While agriculture significantly affects and is affected by climate change, it should also be a part of the solution. Drawing on country-specific examples in Africa, Asia, and Latin America, experts will discuss mitigation and adaptation policies that support food security and other social goals.

Speakers:

Mia MacDonald, Executive Director, Brighter Green

Tozie Zokufa, South African Representative, Compassion in World Farming

Geoff Evans, Animal Agriculture & Climate Specialist, Humane Society International

Andre Leu, President, International Federation of Organic Agriculture Movements

Samwel Naikada, Coordinator, Dupoto Community Forest Association, Kenya
