Transition initiatives

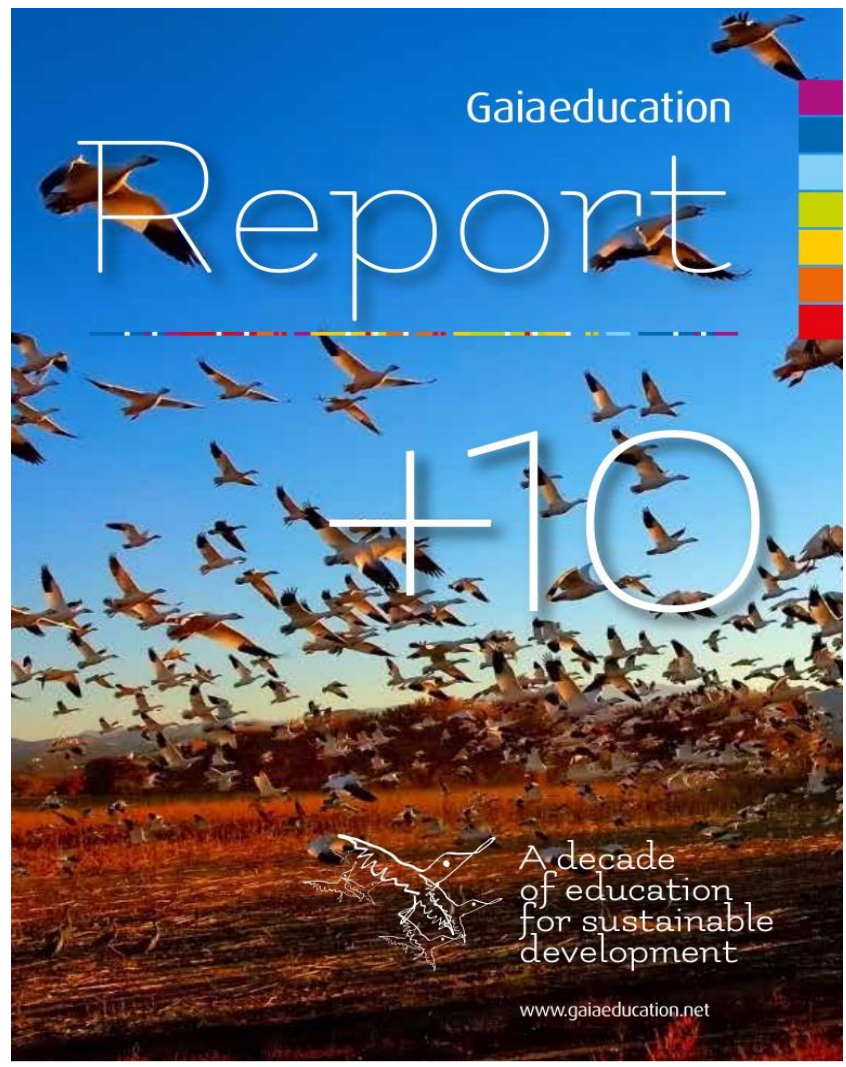

21 Stories of Transition launched at COP 21

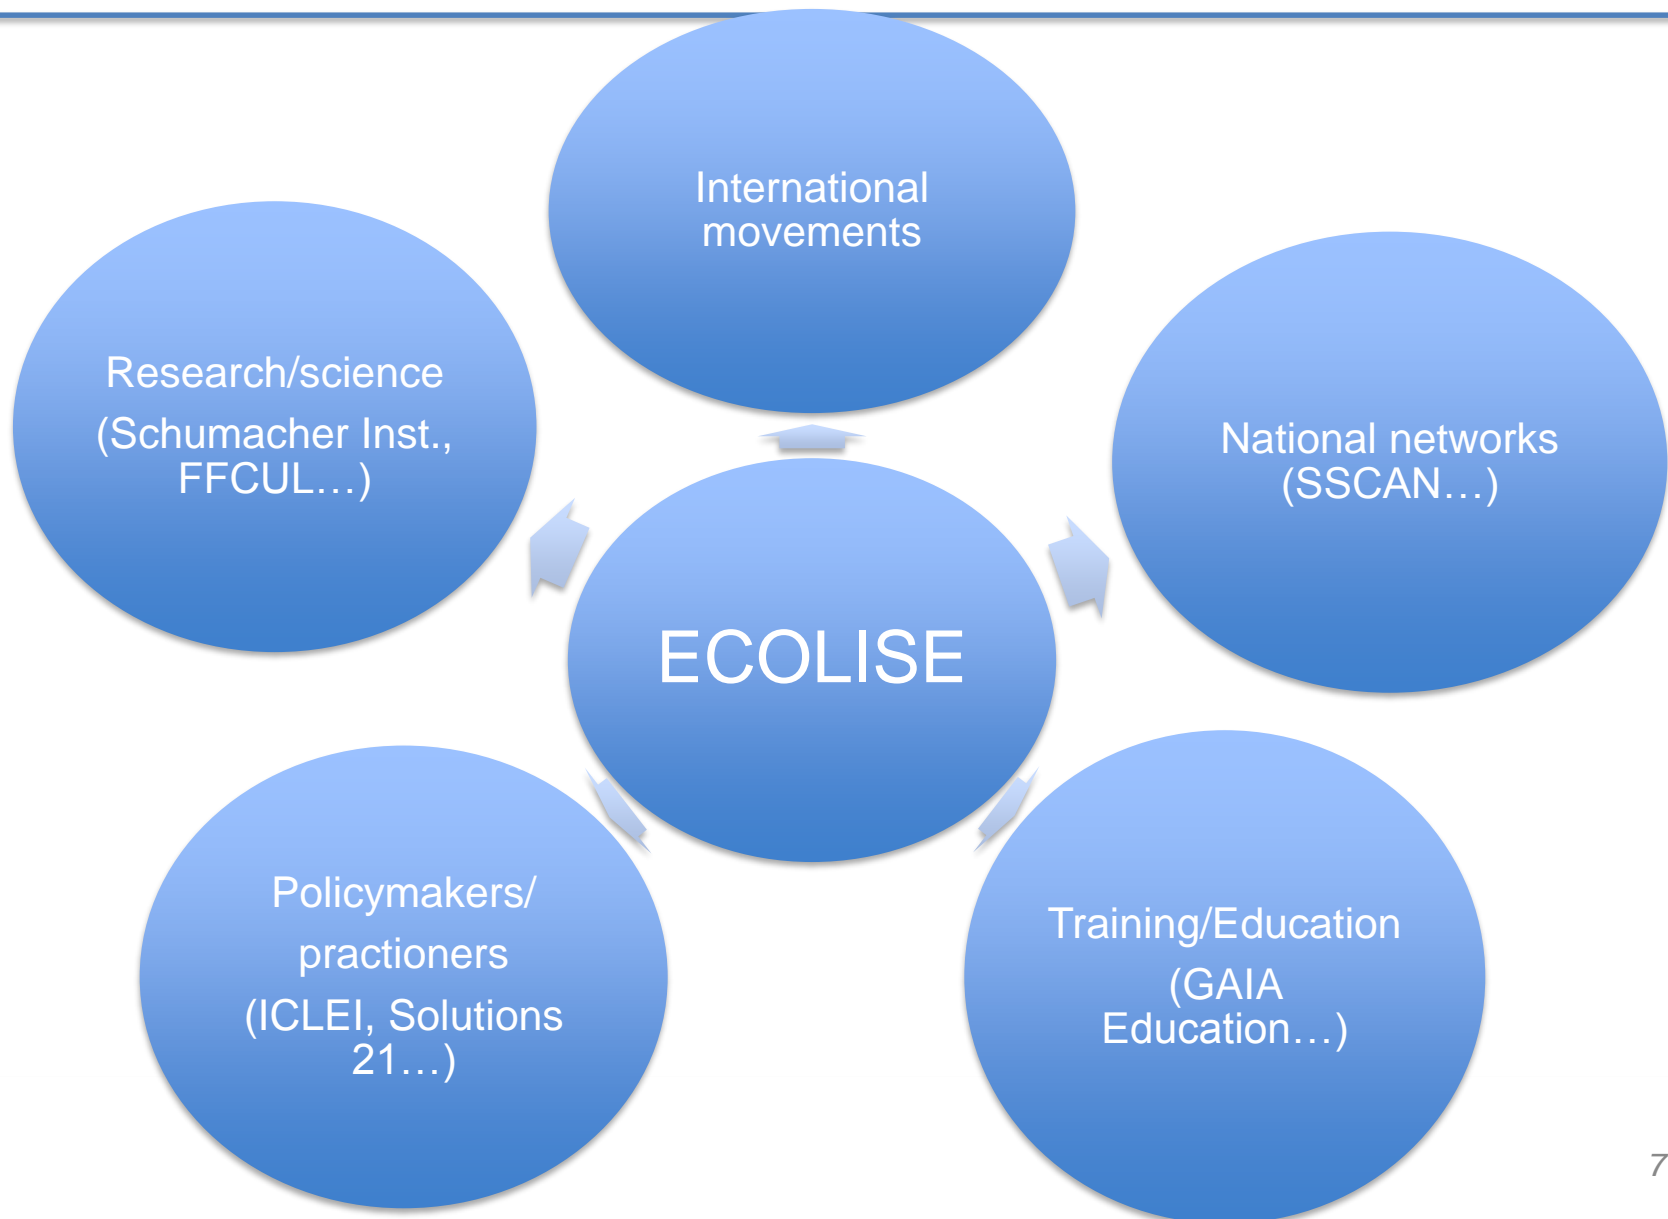

Ecovillages

GAIA. Education, Training, Capacity Building . Working in 43 countries

To celebrate, stimulate and increase the positive impact of community-led action

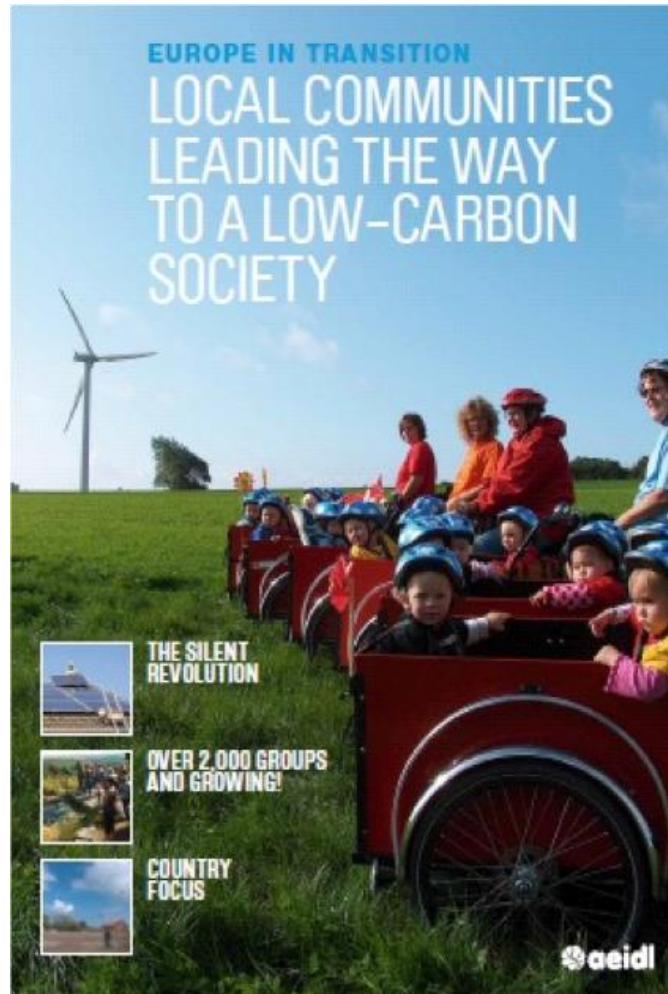

European Day of Sustainable Communities – 23rd Sept 2017

Showcasing the communities of the future

2017-09-23 10:00:00 AM CEST

Local Communities Low Carbon pioneers

- **Current INDCs are virtual SILENT on community involvement. This is a MAJOR gap that must be addressed**
- **Lack of access to finance and non-inclusive governance, severely impedes community involvement in addressing climate change**
- **Truly sustainable development is IMPOSSIBLE without local communities driving the process**
- **Local Communities. Local Solutions**
- **USE us, the ECOLISE network has unparalleled experience in working with local communities on climate change**

- 1. Greater social inclusion**
- 2. Local ownership**
- 3. Employment generation**
- 4. Access to untapped resources and indigenous knowledge**
- 5. Greater chances of long term success**
- 6. Equitable development**
- 7. Community Resilience and Buy-In**

European Day of Sustainable Communities
– 23 Sept. 2017

Thank
you!!!
