

**iGST**  
Independent Global Stocktake

## SB58 Side Event

### Delivering a successful GST1 – Course correcting to meet our climate goals

**Monday 5 June, 16:15-17:30 (CEST)**

**Bonn Side Event Room, World Conference Centre**

*(Pre-event coffee break: 15:45-16:15, outside Bonn side event room)*

The latest science shows we are not on track to meet the goals of the Paris Agreement. The first global stocktake (GST1) provides a unique opportunity to course correct to meet our climate goals. Join us to explore what it will take to make GST1 a success in 2023 and beyond. Speakers will share perspectives on how to land a robust outcome on the GST at COP28, what concrete commitments it could include, and what follow-up is needed to drive action on the ground in the years ahead. This event will build on research from the [OECD-IEA Climate Change Expert Group \(CCXG\)](#) and the [Independent Global Stocktake \(iGST\)](#).

#### Agenda

- 16:15 – 16:20** Welcome by moderator **Enrique Maurtua Konstantinidis**, Iniciativa Climática de México
- 16:20 – 16:25** Opening remarks from **Thureya Alali**, United Arab Emirates
- 16:25 – 16:50** Presentations
