

## **Sussex University/ECN Side Event:**

### **Climate technologies: research results and policy options for development and transfer**

Jaguar Room, Cancun Messe  
Friday, December 3rd, 2010  
20:15 – 21:45

This side-event reviews national and international policy options to enhance technology development and transfer.

The event presents new empirical research by ECN and the Sussex Energy Group, and will discuss options for the implementation of climate technology innovation centres.

Participants will be invited to contribute through an in-event questionnaire on their views on climate innovation centres! Conclusions will be offered to the chair of the EGTT and a technology co-chair on the AWG-LCA technology transfer.

*Chair:* **Kelly Sims Gallagher (The Fletcher School, Tufts University, USA)**

#### *Programme*

**20:15** Welcome **Kelly Sims Gallagher**

**20:20** Introduction to Climate Innovation Centres **Heleen de Coninck** (ECN)

**20:40** Technology transfer: Evidence from India & China **Jim Watson** (SEG)

**21:00** Panel discussion with negotiators and experts (TBC):

**Nagmeldin Goutbi El Hassan** (Sudan, invited)

**Prosanto Pal** (TERI, India)

**Ofori Ahenkora** (Energy Commission of Ghana, invited)

**Yuka Greiler** (Swiss Agency for Development and Cooperation)

**21:45** Options for Climate Innovation Centres **Kelly Sims Gallagher**
