# Core Activities

- Comprehensive
- Tailored to specific needs
- Learning-by-doing
- Peer-to-peer learning

- User-friendly guides
- Learning materials

**Training  
Programmes**

**Knowledge  
Sharing  
events**

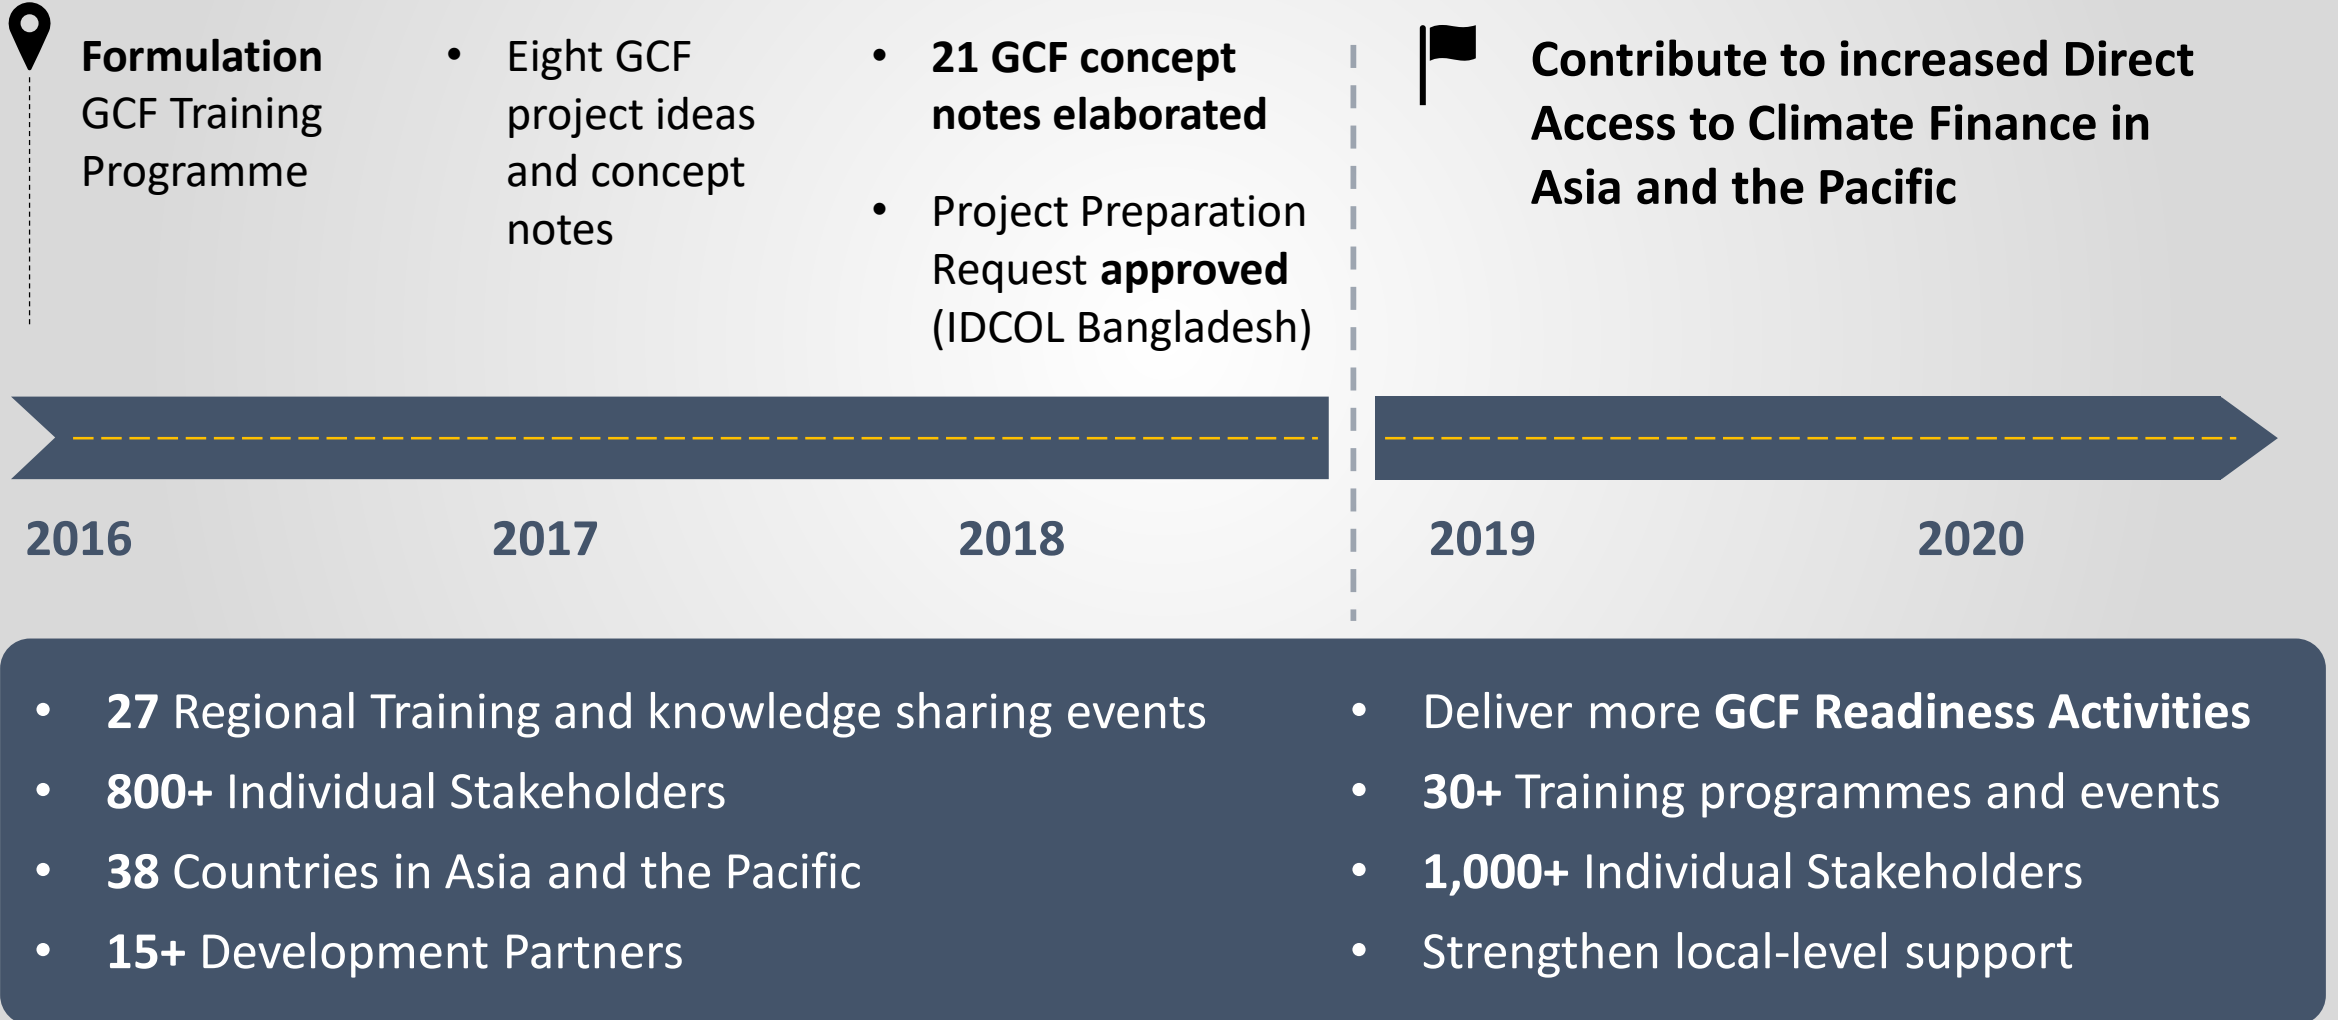

**Knowledge  
Products**

**Mentoring**

- Conferences, workshops, webinars, etc.
- Foster dialogue and lesson sharing between stakeholders

- Direct feedback on draft Concept Notes
- Offer advise on the way forward

# Roadmap: Progress and Targets

# Roadblocks and Way forward

## Funding

- Keeping up-to-date
- Latest knowledge & Best practices

- Institutional Strengthening
- Implementation

## Effective-ness

## Scale-up

Continuity / Follow-up

Concept and Project Development Cycle

Frequency & coverage of Asia and the Pacific

# Thank you!

**Mafruda Rahman**  
Assistant Manager  
GCF Unit, IDCOL

*On 06 November, 2018 the proposed Concept Note along with the PPF request was approved by GCF, which will now enable IDCOL to receive USD 301,562 as a project preparation grant.*

*The submission process to GCF would not have been successful without the various capacity building support that IDCOL received via various stakeholders.*

*Most importantly, the 12 days rigorous training conducted by Asian Institute of Technology on February 2018 was the stepping stone for IDCOL to actively participate in the concept note and PPF request development activities of GCF.*
